In the absence of the carrier, the paper can be had of the principal Periodical Dealers, Newsman and Agents.

THE WEEKLY UNION
Is the cheapest and most desirable Home, News and Literary Journal published on the Pacific Coast.

Entered at the Postoffice at Sacramento as second-class matter.

LOCAL INTELLIGENCE.

MILITARY NOTES.

The Battalion Drill—Random Shots About Various X's.

The battalion drill Wednesday evening is reported as being a poor attempt at the illustrious "Up on the Tactics." The chief trouble seems to have been the inability of some of the company commanders to comprehend the difference between "Right in front" and the reverse, or "Left in front."

Colonel Guile was in command and had no assistants, the Lieut.-Colonel Major being absent. With giving orders, watching guides, and looking particularly after the company whose Captain was absent, the Colonel had a lively time of it. Company B is reported to have kept all hands waiting an interminable time forming for "dress parade," and the Sergeant A was taken with the idea that he knew more than the Colonel about a certain formation. Complaints of the company commanders that the company commanders pay no attention to orders. For instance, a meeting was called after the drill, which some of them did not attend at all. If officers are not prompt in these matters surely the men cannot be expected to be. Further, the Adjutant-General has ordered all claims for extra quarters, including annual allowances, to be sent to him by June 30th, and only one company has complied with the order. Companies F and B have sent in their quarterly claims but not the annual. All the companies are reported to be improving in attendance at drills, particularly Company A. If the gymnasium proposition is handled properly, it will be a great help, but the matter should not be allowed to sleep until it is forgotten altogether.

Orders are out for the Fourth of July parade, which is expected to be a very fine one, and the selection of General Orton as Grand Marshal insures a prompt start, so he behaves the military to be early on hand that day. Orders have been issued for the annual inspection and muster. It takes place in this city July 18th, and muster rolls should be ready by that date. Captain Nibbel, of Nevada City, is complaining, and with good reason, about his uniforms. He sent away for a new set three months ago, and has not yet received a uniform. He will have a ragged parade on the Fourth if he does not get them.

The range number 1000 has been leased by the regiment, and the shell will hereafter be run in a respectable manner. Company B holds election for Captain and Lieutenant next Wednesday evening. When Captain Cook and Lieutenant Major Carroll's terms expire, the election will be held. Major Sherman of the brigade staff presides. Major Heilbron is to inspect and muster the company. Woodland, in July, and Major Birdall, Company C, Nevada City.

The brigade staff officers will meet next Wednesday evening at the company headquarters, where they will practice with the rifles at the range between the hours of 12 and 2 o'clock P. M.

It is reported that Assistant Adjutant-General Perrie Kewen gave the Captain and members of the company a very interesting and a scoring recently. He happened to be present at a meeting where a regimental order was read, and the Captain put the question and number of the order, and it is to whether to receive the order and place it on file or not.

RUNS AND OUTS.

The Game to-morrow to be Between the Athletics and the Athletics.

Judging from the number of fine players who constitute the Athletics, a fine game is expected to-morrow. Harper, the pitcher, is signed with the Athletics and Morris, who will pitch for the Athletics to-morrow. A glance at the Athletics will reveal the fact that every member of the new nine is a ball-player. Fine games have been played lately, and this one promises to be no exception. Following are the nine and positions:

ALIAS. Pitcher. THOMPSON. Catcher. FISHER. First base. McLAUGHLIN. Second base. ROBERTSON. Third base. LAYNE. Left field. WARREN. Right field. WOODLAND. Outfield. FISHER. Right field. CRIBB. Outfield.

The Esperanza Excursion.

There will undoubtedly be a very large attendance at the excursion to town lots at Esperanza to-day. A large number of Sacramento will take this opportunity to pay their first visit to the greatest fruit section of the State. The excursion will leave at 7:30 P. M., arriving here at 7:30 P. M. and returning at 7:30 P. M. The excursion will be one of the best-equipped lines in the State. It will be entirely separate from any other lines, and the induction, which was a great source of annoyance to subscribers on the Woodland road, will be overcome by this new line, which is of fine, hard-drawn copper wire and 25-foot cedar poles. Work will be commenced in a few days.

New Telephone Wire.

The Sunset Telephone Company intends placing a new wire between Sacramento and Woodland, on the road from Woodland to Woodland, and this will be one of the best-equipped lines in the State. It will be entirely separate from any other lines, and the induction, which was a great source of annoyance to subscribers on the Woodland road, will be overcome by this new line, which is of fine, hard-drawn copper wire and 25-foot cedar poles. Work will be commenced in a few days.

The Signal Service.

The Signal Service report, wind and weather at 4 A. M. yesterday was 62° southeast, 4 miles an hour and clear; 12 M., 90°, northwest, 3 miles an hour and clear; 7 P. M., 78°, southwest, 9 miles an hour and fair. The average temperature was 73°. The highest and lowest temperature was 90° and 61°, showing yesterday to be a very warm day in maximum temperature than was the day before. The barometer was falling at night, with cirro-stratus clouds coming from the northwest.

HEAPS OF TROUBLE.

Quarrelling Neighbors Before Judge Buckley Yesterday.

Judge Buckley had to deal yesterday with the most unpleasant case of cases that came before the Police Court—quarrels among neighbors. There is always a direct conflict of testimony, and it is often very difficult to decide which is right. The most prominent case on the calendar yesterday was that of Mrs. Lizzie Desmond, charged with disturbing the peace of Mrs. Adams, her next door neighbor. Mrs. Adams, who resides at 214 N. street, testified that on Thursday one of her chickens got into Mrs. Desmond's yard, and the latter threw it over the fence and some of her chickens followed. Mrs. Desmond, who lives at 214 N. street, testified that she was a brute to kill the little chicken. Then Mrs. Desmond, connected to call her bad names and to threaten her life. She also said she would burn down their house.

Mrs. Caroline Gardner testified to substantially the same thing, both the witnesses detailing very bad language used by the defendant.

Mrs. Ginn, a neighbor, was called as a witness for the defendant. She said that she heard a chicken in Mrs. Desmond's yard which was being worried by the dog and told Mrs. Desmond she ought to put it over the fence before the dog killed it. Mrs. Desmond put the chicken over the fence and Mrs. Ginn called her a brute, when Mrs. Desmond struck her broom on the fence and some of her chickens followed.

Cornelius Desmond testified that his wife put the chicken over the fence very gently. Witness then retired to her own house and was not called again.

Mrs. Ginn, a neighbor, was called as a witness for the defendant. She said that she heard a chicken in Mrs. Desmond's yard which was being worried by the dog and told Mrs. Desmond she ought to put it over the fence before the dog killed it. Mrs. Desmond put the chicken over the fence and Mrs. Ginn called her a brute, when Mrs. Desmond struck her broom on the fence and some of her chickens followed.

Cornelius Desmond testified that his wife put the chicken over the fence very gently. Witness then retired to her own house and was not called again.

Mrs. Desmond, who lives at 214 N. street, testified that she was a brute to kill the little chicken. Then Mrs. Desmond, connected to call her bad names and to threaten her life. She also said she would burn down their house.

Mrs. Caroline Gardner testified to substantially the same thing, both the witnesses detailing very bad language used by the defendant.

Daily, William H., 21, 21st street.
Dawson, Robert Lee, 11, 11th street.
Dawson, Robert Lee, 11, 11th street.
Dawson, Robert Lee, 11, 11th street.

Comparative Statistics.
The farmers want high prices for their land and its product. They also desire a continuous and profitable market for the distribution of manufacturing plants has furnished the market and the prices. In Pennsylvania, Illinois and Virginia, for example, the per acre value of land in manufacturing and the price of farm lands have a proportionate ratio. The more manufacturing the more the land increases in value. Around the manufacturing regions of the South and West, products have relatively risen in response to the newly developed wealth created, which attracts capital and numbers, purchasing and consuming goods.

It ought not to need demonstration that the farmers of the country are specially interested in protection that encourages manufacturing. As manufacturing progresses, agricultural lands will become more valuable, and all they produce will find ready and prosperous markets at home, where the money is redistributed and circulated.
